Mark 2000 Specifications:

- Construction: durable, corrosion resistant painted metal frame
- Motor: enclosed, heavy duty fan cooled 115 volt,60 hz, UL CSA approved
- Unit: Entela & CE marked approval, for North American and European usage standards
Can be equipped to meet all electrical standards
- Height - 39"
- Width - 21"
- Length - 24"
- Weight - 88 :LBS
- Casters rear- 5"
- Casters front- 2"
- Crushing capacity- 60 4ft lamps or 30 8ft lamps before replacing bag
- Particle/carbon filter - 1200 4ft crushed lamps before replacing
- Mercury/Hepa cartridges - (2) 1200 4ft crushed lamps capacity before replacing
- Bag - 3.5ml poly bag 34x40
- Revolutionary designed looped filtration system completely enclosed, which insures operator safety from mercury exposure**
- Built in scale weight sensor switch which shuts the unit off when the bag has reached its 60 lamp capacity weight level
- Heavy duty beater assembly which can withstand high volume crushing
- Luminated weight sensor & off/on light switch indicators.
- Patent: USA patents: 5,660,338 /5,769,336 Canadian, Japan,& European patent pending
