

# **DAN-X INCORPORATED**

## **MARK 2000 RE-CERTIFICATION & MAINTENANCE SCHEDULED**

### **PROGRAM**

January 4, 2016

The Mark 2000 re-certification & maintenance program is designed to offer our customers who uses the Mark 2000 crusher the quality assurance that their unit is operating at its peak capacity, to insure operator safety for the long term.

The recertification & maintenance program is a program that can be used once every 5 years to have their unit inspected and re-calibrated for proper environmental compliance to insure operator safety while in use.

The Re-Certification & Maintenance Program cost **\$2799.00** which includes:

**Payment Terms: Visa, Master Card, American Express**

- Shipment of unit **to** Dan-x and **back to** customer
- replace all door gaskets
- replace all broken or bent wheels
- replace proper sealant of the filter media
- replace any worn out door hinges
- replace bag strap
- repair broken feed tube caps
- recalibrate suction fan rpms
- recalibrate motor speed
- check scale sensor
- install filter adapters if needed
- install Re-certification sticker
- receive 3 only product #99108 replacement kits free (valued at \$750.00)
- receive 1 complete Mark 2000 shipping carton to place the unit into for shipment to Dan-x

If any parts such as motors , vacuum pumps , beater assemblies or scale sensor switches have to be replaced, they will be replaced at a 50% discounted price of the original cost, if approved by the customer.

Dan-x is committed to its customers by employing and providing safety and environmental protocols for its Mark 2000 unit , to maintain the highest level of quality assurance programs.

The Mark 2000 re-certification & maintenance program is offered Canada wide to all customers using the Mark 2000 in their spent lamp disposal programs.

Dan-x can offer an added service of disposing the spent filters from the Mark 2000 unit and the bags of crushed glass that can be further processed instead of disposing in landfills. **Call us for a quote in your province.**
